Crew appreciation. Real connections.

The Permian Basin Rally brings the Pipeliners Tour to West Texas for a gathering rooted in pipeline culture, brotherhood and pride in the trades. It is built around the people who spend long hours on the road and on the right of way, keeping energy moving.

This is not a trade show.

The tour creates space for real conversations between crews, contractors and the brands they use on the job. The focus is on showing up for the workers, building relationships and celebrating the industry together.

Who it is built for

Pipeliners, welders, operators, laborers, foremen, union members, contractors, industry suppliers and others connected to the pipeline and energy workforce.

Planning note: The venue, event hours, ticket details, participating companies and activity lineup will be announced as confirmed. Contact the organizer for the latest information before publishing.
